ABSTRAK (ABSTRACT)

Latar belakang Kajian

Dinding di ruang tamu tidak mempunyai daya tarikan yang sesuai dan objek atau barang-barang kecil sering menjadi salah tempat di ruang tamu . kami ingin membuat produk hiasan dinding yang berfungsi sebagai ruang simpanan kecil.

(Background of Research)

The walls in the living room lack the appropriate charm and objects or small items are often the miss places in the living room. we wanted to create a wall decoration product that functions as a small storage space.

Kenyataan Masalah

Objek atau barang-barang kecil sering menjadi salah tempat di ruang tamu. Contohnya, kawalan televisyen, jam tangan, kunci, surat dan sebagainya. Ketersediaan produk ini memudahkan manusia mencari barang mereka.

(Statement of Problem)

objects or small items are often the misplaces in the living room. For example, television controls, watches, keys, letters and so on The availabilities of this product make it easier for human to searching their belongings and The walls in the living room lack the appropriate charm .

Objektif Kajian

Untuk membuat produk yang berfungsi sebagai hiasan rumah dan menyimpan bekas kecil kepada setiap keluarga dengan masalah seperti kelalaian dalam meletakkan barang berharga dan sebagainya ..

(Objective of Research)

To create a product that serves as a home decoration and keeps small containers to every family with problems such as negligence in placing valuables and so on..

Metodologi Kajian

Kami menggunakan dua kaedah; kaedah pertama adalah mengumpulkan hasil soal selidik dari orang yang secara sukarela mendapatkan sampel data untuk kesesuaian pengeluaran projek 'hiasan dinding sarang lebah'. Manakala kaedah kedua metodologi kami adalah mengenai bahan yang digunakan untuk menghasilkan produk 'honeycomb wall decoration'.

(Methodology of Research)

We use two methods; the first method is to collect the results of questionnaires from people who volunteer to obtain a sample of data for the appropriateness of the

production of the 'honeycomb wall decoration' project. While the second method of our methodology is about the materials used to produce 'honeycomb wall decoration' products

Dapatan kajian

Hasil pertama yang kami perolehi adalah penemuan yang diharapkan dapat memihak kepada hasil cadangan penyelidikan kami kerana menurut soal selidik yang kami perolehi, kebanyakan responden sekitar 83.6% tidak memiliki tempat menyimpan kunci, bil, dan surat di satu tempat. Selain itu, hasil kajian kedua adalah penggunaan kayu palet untuk penghasilan 'hiasan dinding sarang lebah' menunjukkan bahawa kayu palet itu murah dan senang dicari.

(Finding of Research)

The first results we have obtained are the findings that are expected to be in favour of the results of our research proposal because according to the questionnaire we obtained, most respondents around 83.6% do not have a place to keep keys, bills, and letters in one place. In addition, the result of the second study is the use of pallet wood to production of 'honeycomb wall decoration' shows that the pallet wood is cheap and easy to find.
