

## HONEYCOMB WALL DECORATION

- **PROBLEM STATEMENT** : The walls in the living room lack the appropriate charm and objects or small items are often the miss places in the living room. we wanted to create a wall decoration product that functions as a small storage space. Therefore, we want to create this product because we want to help people from misplaced their belongings. For example they often miss place their valuable things such as remote televisions, keys, letters and others. That is why they often miss place them and are difficult to find. This honeycomb wall decoration was created to help users overcome the problem of carelessness in putting things in their proper place. In addition, this product can also be used as a wall decoration whether in the living room, dining room or bedroom. This is because, it is a bee-shaped design that makes the wall's jewelry look more attractive and unique when looking at it.
- **METHODOLOGY** : We use two methods; the first method is to collect the results of questionnaires from people who volunteer to obtain a sample of data for the appropriateness of the production of the 'honeycomb wall decoration' project. While the second method of our methodology is about the materials used to produce 'honeycomb wall decoration' products.
- **RESEARCH OBJECTIVE** : To create a product that serves as a home decoration and keeps small containers to every family with problems such as negligence in placing valuables and so on.
- **ADVANTAGE** : The honeycomb wall decoration product that made for anyone in need. this product have a commercial value that can be market as requested
- **METHOD OF USE** : The way to use this product is by placing it on the wall. therefore, consumers can store or place small valuables in the product space
- **CONCLUSION** : This honeycomb wall decoration will be able to help users who often lose small items. In addition, this product can also be used as a home wall decoration because the product is a beehive pattern.
